

Client's Authorisation – What this means!

By opting into Authorise an intermediary you will be bound by the conditions below. The details of the intermediary are provided during the on-line application process and should be recorded.

This authorisation is given in favour of the person described below as (Intermediary) and FPM [ACN 16 112 600 281] [FPM] by the person(s) identified below as Client.

The Client confirms to Intermediary and FPM that:

1. Client has received FPM's financial services guides and product disclosure statements relevant to the financial services and products it wishes Intermediary to deal in on its behalf, prior to dealing on behalf of Client.
2. FPM is providing an execution-only service and does not provide any general or personal advice.
3. FPM does not operate a managed discretionary account service or other indirect Client platform services by this execution-only service. The Intermediary is not the agent of FPM nor is FPM liable for Intermediary's services to Client.
4. Client has authorised Intermediary to bind Client under FPM's agreements and product disclosure statements on behalf of Client. Client will be bound by instructions provided by Intermediary (or a representative of it) and will be bound by any financial product acquired or entered into by FPM on instructions from the Intermediary for Client, including for all payment of all amounts arising from FPM acting on those instructions.
5. If Client is a trustee, Client confirms that (i) Client is empowered by the relevant trust deed and law to enter into its agreement with Intermediary and its authorisation of Intermediary on behalf of Client to deal on Client's account with FPM is for the benefit of the beneficiaries of the trust; (ii) Client has a right to be indemnified out of the assets of the trust for all liabilities incurred on its behalf under the agreements with FPM.
6. Confirmations and account information may be sent to Intermediary as well as Client electronically and no paper confirmations or statements will be sent.
7. In the case that the Client has no trading experience it discharges the need to have an understanding of the process and technologies used in trading as these will be the responsibility of the AFSL holder who is acting on the Clients behalf. FP Markets will rely on this for the purpose of client suitability.
